AREAS OF INTERESTS

My research interests lie at the intersection of Continual Learning and Natural Language Processing (NLP), where I am dedicated to exploring innovative techniques that enable AI systems to learn in the task-streaming environment. In addition, I am currently dedicated to advancing AI for Code, leveraging NLP techniques, Large Language Models, and software engineering principles to tackle software engineering problems and applications.

EDUCATION

2017 – present	Hanoi University of Science and Technology (HUST) (2017-2021) <i>Bachelor in Computer Science</i> • Bachelor of Science (Honors) in Computer Science. • GPA: 3.59/4.0 • The university is ranked top 1 in Vietnam in Computer Science. (2021-2023) <i>Master in Computer Science</i> • Master of Science (Honors) in Computer Science. • GPA: 3.94/4.0 (2025-present) <i>Doing PhD in Computer Science</i>
----------------	--

RESEARCH EXPERIENCE

2018 – 2021	Data Science Lab, HUST <i>Research Assistant</i> • Researched Continual Learning algorithms for Computer Vision and NLP problems. • Supervisor: Dr. Ngo Van Linh. • Topics of interest: – Continual learning. – Natural language processing.
2022 – 2025	FPT Software AI Center <i>Research Resident</i> • Research algorithms and datasets in AI for Software Engineering. • Supervisor: Dr. Bui Duy Quoc Nghi. • Topics of interest: – Programming language foundation model. – Code generation and understanding. – Truthworthy AI in Software Engineering.
2025 – present	Hanoi University of Science and Technology (HUST) <i>Lecturer</i> • Lecturer/Instructor for University Courses. • Courses in charge: – Practical classes: Introduction to Informatics, Applied Algorithms, Programming Techniques, Object-oriented Programming, Database. – Lecture classes: Software Development Using Large Language Models.

INDUSTRY EXPERIENCE

2021	VCCorp Corporation <i>NLP Engineer</i> • Build an Aspect based sentiment analysis for F&B customers. • Build and deploy API for AI model, manage labeling process.
2022	MobiFone IT Center <i>NLP Engineer</i> • Work on speech-to-text model for call bot. • Build a spelling correction model for the output of the S2T model.
2026	National AI Olympiad Team <i>Served on the problem-setting committee for the National Artificial Intelligence Olympiad, contributing to the design and evaluation of competition tasks.</i>

AWARDS & HONORS

2024	Best Tool Award <i>International Workshop on Natural Language-based Software Engineering</i>
2022	Third Prize at Quy Nhon AI Hackathon (Top 3 over 73 teams) <i>FPT Software</i> - Article
2021	First Prize at VLSP competition Award (Top 1 over 77 teams) <i>Association for Vietnamese Language and Speech Processing</i>
2021	Best Thesis Presentation Award <i>Hanoi University of Science and Technology, Vietnam</i>

SKILLS

Programming Languages	Python, Java, C/C++
Deep Learning Frameworks	Pytorch, TensorFlow, Huggingface Transformers
Machine Learning Libraries	OpenCV, Scikit-learn, Numpy, Pandas, Matplotlib

LANGUAGE

- Vietnamese (mother tongue)
- **English (B2)**
 - TOIEC 865 Overall (Listening: 470, Reading: 395).
 - VSTEP 7.5 Overall (Listening: 7.0, Speaking: 7.0, Reading: 7.5, Writing: 8.0)
